

AuxComm

What is AuxComm

AuxComm is a FEMA program of **Specially trained**

Amateur Radio Operators

Serving in

Auxiliary Communication

as

Auxiliary Communicators

during a

FEMA Declared Event/Emergency

AuxComm Prerequisites

1. A valid Amateur Radio Operators License
2. Successful completion of ICS online courses
IS-100.c, IS-200.b, IS-700.b and IS-800.c
3. successful completion of the
AuxComm course

Upon successful completion of the AuxComm course you will be certified as an
AuxComm Communicator

The AuxComm class
is a really enjoyable, informative and certified
20 hour class
(generally two 10 hour days)

You will learn about some of the ICS forms
used by several agencies

and

you will learn about ICS forms used in
Emergency Communications

You would be better prepared
to serve the public

§97.1 Basis and purpose of the Amateur Radio Service

The rules and regulations in this part are designed to provide an amateur radio service having a **fundamental purpose** as expressed in the following principles:

(a) Recognition and enhancement of the value of the amateur service to the public as a voluntary noncommercial communication service, particularly with respect to **providing emergency communications**.

When directed by a Emergency Management
agency
issuing the deployment callout.

You would most likely be under some kind of
command structure.

Your AUXCOMM training would allow
you to
better interface with served agencies

As a specially trained Ham Radio Operator serving as an AuxComm Auxiliary Communicator,

You can be asked to perform many different tasks associated with Emergency Communications

- In a FEMA Emergency Communications Unit
- In an Emergency Management Agency Communications Unit
- In an Emergency Operations Center
- In many other types of public service events

As an AuxComm you'll NEVER be asked to perform tasks not related to communications

Requirements to complete the course

(refer to handouts for full details)

- Go to the OEMComm Web site for links to the ICS online courses.
- Register for a FEMA SID (if you don't already have one).
- Successfully complete the required online courses; IS-100, IS-200, IS-700, IS-800
- Save the certificates (PDF format). They will be needed to submit to AZ DEMA as proof of completion.
- Visit dematraining.az.gov and create your DEMA account (if you don't already have one).
- After completing registration and your password, revisit dematraining.az.gov and log in.
- Find the course C992.001 and register for the course

Course Overview

ICS 100, Introduction to the Incident Command System, introduces the Incident Command System (ICS) and provides the foundation for higher level ICS training. This course describes the history, features and principles, and organizational structure of the Incident Command System. It also explains the relationship between ICS and the National Incident Management System (NIMS). The Emergency Management Institute developed its ICS courses collaboratively with:

- National Wildfire Coordinating Group (NWCG)
- U.S. Department of Agriculture
- United States Fire Administration's National Fire Programs Branch

Course Objectives:

At the completion of this course, you should be able to:

- Explain the principles and basic structure of the Incident Command System (ICS).
- Describe the NIMS management characteristics that are the foundation of the ICS.
- Describe the ICS functional areas and the roles of the Incident Commander and Command Staff.
- Describe the General Staff roles within ICS.
- Identify how NIMS management characteristics apply to ICS for a variety of roles and discipline areas.

System Information

The Acadis® Readiness Suite is a comprehensive public safety training solution developed by Envisage Technologies, LLC. The company provides the Acadis® software and training modernization consulting to premier training organizations throughout the US. To find out more, please visit the Envisage web site at www.envisagenow.com.

The Whole Community

Whole Community describes an approach to emergency management that frames all hazard preparedness, prevention, response, recovery and mitigation as the shared responsibility of federal, tribal, state and local governments; non-governmental and faith-based organizations; private sector businesses; and communities, families and individuals. While no single organization or jurisdiction has enough staff, funding and equipment to respond to and recovery from a large disaster on its own, when the Whole Community works in concert and shares resources, we can meet any challenge.

The DEMA Training Branch provides training to state, county, local and tribal first responders, first receivers and emergency management personnel. We also arrange attendance at training for many out-of-state federal programs. For more information, please click [here](#).
