

## **Minutes of June 9, 2025 Repeater Committee Meeting**

All members present and one guest, Roger K5IP

No objections or additions to June 2 minutes

27 machine: Radio was sent to BridgeCom for repairs. Proper cables placed on duplexer and is running OK on the 29 machine at K2SS

29 machine: Getting good reports using the duplexer from the 27 machine and a 10 element yagi aimed south located on a tower distant from the solar panels.

UHF repeater is working. Mike KL7KTP volunteered to run field strength measurements which will provide expectations of the 27 machine when installed at the fire station

WebSDR: Working quite well. Discussion of using and mounting the  $\frac{1}{4}$  wave 20 meter vertical.

The two donated 4 cavity duplexers are in storage at K2SS. More information is needed about them. Roger K5IP volunteered to look at them when he returns to Green Valley in the fall.

Chairman Ed expressed gratitude for the people stepping up and volunteering to help.

Next meeting will be June 16, same venue.
